PhomPenh, Cambodia

PROFILE SUMMARY

Highly motivated IT student at ITC Cambodia with strong foundations in programming, databases, and data science. Skilled in multiple languages including Python, C, C++, R, Java, JavaScript, SQL, Assembly, HTML, CSS, and Tailwind CSS, with hands-on experience using tools such as PyCharm, Colab, MySQL, SQLite, and UbuntuOS. Demonstrates problem-solving abilities, adaptability, and eagerness to learn new technologies such as ReactJS, Firebase, and Framer Motion.

EDUCATION

Lycee Preah Angduong Highschool

2020 - 2022

- Completed high school with strong academic performance in mathematics, physics, and computer studies.

Institute of Technology of Cambodia (Techno)

2022 - PRESENT

- Gaining knowledge in programming, databases, data science, and software development.
- Actively working on projects involving Python, C/C++, R, SQL, and web technologies.
- Developing a strong foundation in data analysis, machine learning, and software engineering.

WORK EXPERIENCE

School Project

2023 - 2024

- Developed a School Management System to streamline student and staff data handling.
- Designed and built a website with responsive UI using web technologies.
- Implemented web scraping techniques and applied machine learning models to solve real-world problems.

Coding Teaching (volunteer)

2024 - 2025

- Taught C/C++ programming fundamentals to beginner students.
- Delivered lessons on Python basics, fostering interest in programming and problem-solving.

HARD SKILL

- Programming: C, C++, Python, Web Development (HTML, CSS, Tailwind, JavaScript)
- Data Science: AI, Machine Learning, Research, Web Scraping
- Productivity: MS Word, Excel, PowerPoint

SOFT SKILL

- Friendly & Approachable
- Teamwork & Collaboration
- Fast Learning & Adaptability

LANGUAGES

- Khmer (Native)
- English B1 (Intermediate)
- French A2 (Basic)
